What's in it for you?

Increase your visibility by using the Circular South Sweden stand as a meeting point and a platform to showcase your material. Amplify your message by getting featured in the delegation profile booklet and the LOOP Forum's and respective region's communication channels.

The LOOP Forum is the leading Nordic forum for innovation, design and technology solutions for resource efficiency, waste reduction and circular economy across industries and value chains. This year's forum especially welcomes startups and scale-ups, impact investors and corporates ready to join efforts in tackling the current industrial and societal challenges with innovative circular technologies and symbiotic practices.
